 - Oct: Martin Keenan, Aviation History
 - Nov: pending
 - Dec: Christmas Dinner

We are looking for additional speakers for November and next year.
7. Any other business

Break

Presentation: Jim Laster, Aviation Regional Sales Manager, Garmin

Jim will be providing an open question and answer session including questions such as:

- What new technologies are coming down the pipe from Garmin for GA aircraft?
- As it now looks like Canada and the US may end up with different ADS-B systems does Garmin have equipment coming that will work with both systems at reasonable cost?
- Low cost diversity antenna's?
- Does Garmin see equipment that is being developed for experimental aircraft becoming available for certified aircraft without huge increases in costs and long delays? Any ideas on if / when this might come in?
- Other questions ?
